FOSTER WHEELER AWARDED SPRINGERVILLE BOILER ERECTION CONTRACT BY SRP

HAMILTON, BERMUDA, April 25, 2007--Foster Wheeler Ltd. (Nasdaq: FWLT) announced today that a subsidiary within its Global Power Group has been awarded a contract for construction management services and reimbursable craft labor to erect a 400 megawatt (MWe) pulverized-coal (PC) steam generator at the Springerville Generating Station in Arizona by Salt River Project Agricultural Improvement and Power District (SRP). Foster Wheeler was previously awarded a contract in 2006 to supply the PC boiler to SRP for this project.

The contract, valued at approximately \$75 million, will be included in the Company's second-quarter 2007 bookings.

Foster Wheeler will erect the PC boiler components, associated piping, auxiliary equipment and selective catalytic reduction systems. Erection of the boiler is expected to begin in April 2007, with commercial operation scheduled for late 2009.

"This award represents a win for Foster Wheeler and reflects SRP's confidence in Foster Wheeler not only as a supplier of state-of-the-art boilers, but also as an experienced boiler constructor," said Gary Nedelka, president and chief executive officer of Foster Wheeler North America Corp. "This is another example of Foster Wheeler's commitment to supply complete, cost-effective solutions to support our clients in the power industry."

"We saw a lot of value in having Foster Wheeler supply and erect our new boiler for unit #4 and are convinced that Foster Wheeler is the right company to have on our team," said Bill Rihs, manager, Major Projects, SRP.

headquarters are in Clinton, New Jersey, USA. For more information about Foster Wheeler, visit our Web site at www.fwc.com.

2. Safe Harbor Statement

This press release may contain forward-looking statements that are based on the Company's assumptions, expectations and projections about Foster Wheeler and the various industries within which it operates. These include statements regarding the Company's expectation about revenues (including as expressed by its backlog), its liquidity, the outcome of litigation and legal proceedings and recoveries from customers for claims, and the costs of current and future asbestos claims and the amount and timing of related insurance recoveries. Such forward-looking statements by their nature involve a degree of risk and uncertainty. The Company cautions that a variety of factors, including but not limited to the factors described under Part I, Item 1A. "Risk Factors" in its most recent annual report on Form 10-K, could cause business conditions and results to differ materially from what is contained in forward-looking statements: changes in the rate of economic growth in the United States and other major international economies; changes in investment by the oil and gas, oil refining, chemical/petrochemical and power industries; changes in the financial condition of the Company's customers; changes in regulatory environment; changes in project design or schedules; contract cancellations; changes in the Company's estimates of costs to complete projects; changes in trade, monetary and fiscal policies worldwide; currency fluctuations; war and/or terrorist attacks on facilities either owned or where equipment or services are or may be provided; interruptions to shipping lanes or other methods of transport; outcomes of pending and future litigation, including litigation regarding the Company's liability for damages and insurance coverage for asbestos exposure; protection and validity of the Company's patents and other intellectual property rights; increasing competition by foreign and domestic companies; compliance with the Company's debt covenants; recoverability of claims against the Company's customers and others by the Company and claims by third parties against the Company; and changes in estimates used in the Company's critical accounting policies. Other factors and assumptions not identified above were also involved in the formation of these forward-looking statements and the failure of such other assumptions to be realized, as well as other factors, may also cause actual results to differ materially from those projected. Most of these factors are difficult to predict accurately and are generally beyond the Company's control. You should consider the areas of risk described above in connection with any forward-looking statements that may be made by the Company. The company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any additional disclosures the Company makes in proxy statements, quarterly reports on Form 10-Q, annual reports on Form 10-K and current reports on Form 8-K filed with the Securities and Exchange Commission.
