COMPLETE COMMITMENT

Foster Wheeler's UK Operations has been engineered specifically to address the needs of the UK market and to provide small project teams for the international arena. Our goal is to provide bespoke project solutions and to support our clients in achieving great things.

Relationships and value are at the heart of what we do. This is our commitment to you.

Commitment to:

- Long-term relationships
- Successful collaborations with clients and third parties
- Sharing best practice
- Integrated teams
- Site-based teams
- High-value execution models
- Proven systems tailored to small- and medium-sized projects

FOCUS ON DELIVERING EXCELLENCE

UK Operations focuses on offering a highly qualified and experienced pool of resources to provide a local and responsive service. We provide integrated asset support and project execution from established regional offices and site-based teams. We also service small projects overseas.

We can deliver your project safely, on budget and on time through applied:

Customer Focus

Our desire to be responsive

Innovation

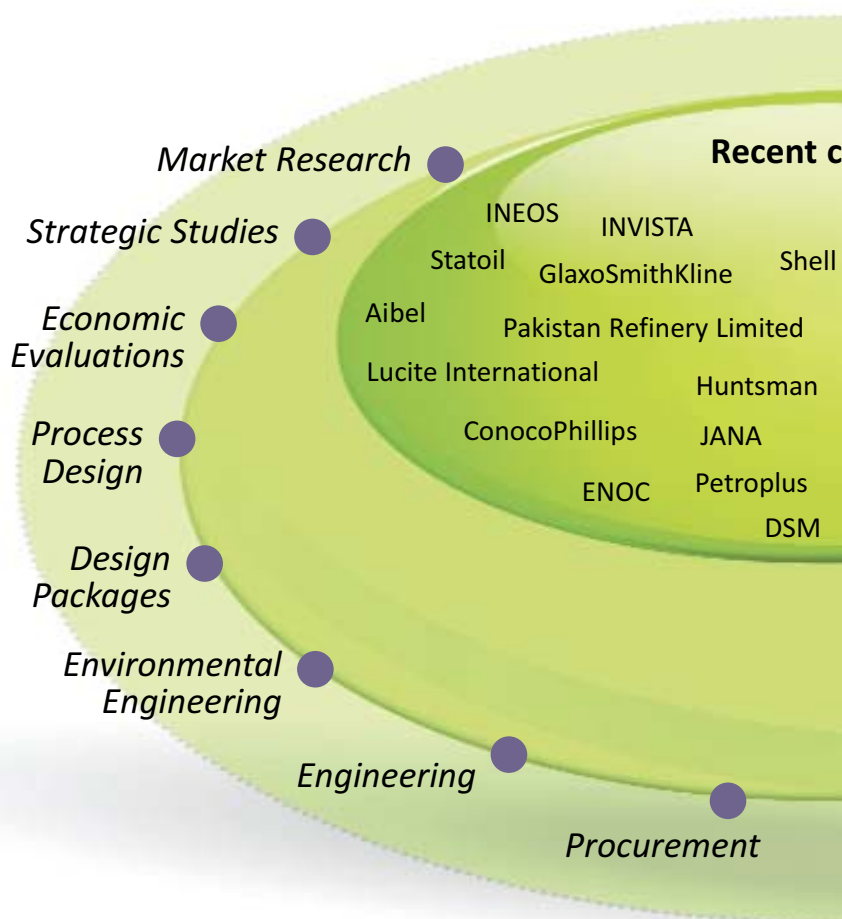

Our ability to be flexible and adaptable

Risk Management

Our determination to deliver certainty

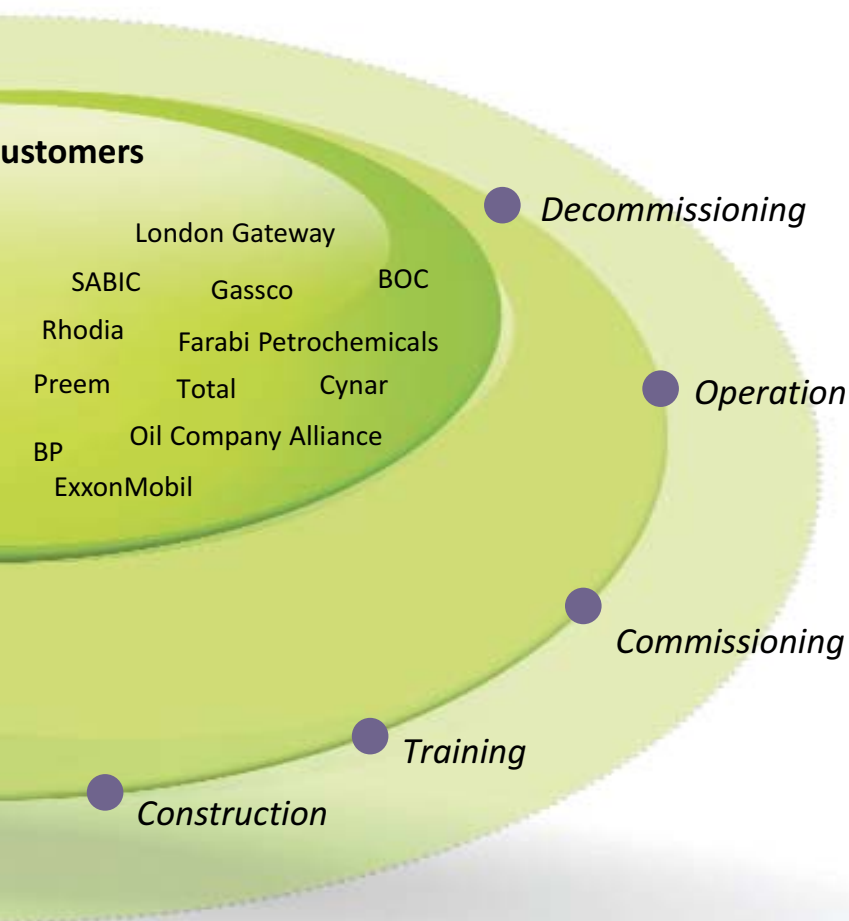

Continuous Improvement

Our expectation to provide the best possible service every time

“Since the award of the FEED Framework Agreement in 2010, Statoil has built a very effective working relationship with Foster Wheeler. The project teams from both companies are operating as an integrated organisation and to date have successfully delivered three high quality projects, safely, on time and under budget. We are working well together and I hope that this relationship will go from strength to strength with further FEED work and the subsequent progression of these projects.”

Steffen Kristensen
Project Manager, Statoil ASA

Our track record includes:

- Chemicals
- Petrochemicals
- Refining
- Upstream Oil & Gas
- Gas Storage
- Pharmaceuticals, Biotechnology & Healthcare
- Carbon Capture & Storage
- Clean Energy

"We offer proven and capable people who work in an integrated manner with our clients to deliver excellence and certainty across a broad range of services. As a team, we share a real desire to execute high-quality projects safely, on budget and to schedule - this is our commitment to you."

Frazer Mackay
Managing Director, UK Operations
